Dear Parents of the Maine South Class of 2022,

As you are likely aware, our Incoming Freshman Registration Kick-Off Night is on **Monday, November 13**. At this Kick-Off night you and your student will receive information about the registration process, scheduling a meeting with your student's counselor that will occur after Winter Break, the course placement process, and information on the wide variety of elective course offerings for freshmen. Our elective teachers will be available in their elective classrooms so you can see, and talk about, what elective classes you wish to take. In addition, all of our Department Chairs will be here that evening to talk about course options and answer placement questions. Also, there will be sessions on Summer School, the new freshman Advanced Placement offering on AP Human Geography, as well as AP World History, and a session for Special Education students.
